STATE OF NEW JERSEY :	:

This matter was opened to the New Jersey State Board of Nursing (" Board") upon receipt of respondent's request for release from the requirements imposed pursuant to a Consent Order entered on December 2, 2011. Respondent had been in the

Professional Assistance Program of New Jersey (PAP) in November of 2011 for monitoring, although PAP reported that respondent did not meet the criteria for alcohol abuse or dependence.

PAP has now advised the Board that respondent has been totally compliant with program requirements and has completed the "one-year Rule Out" that was the purpose of PAP monitoring, showing no evidence of impairment.

The Board finding that respondent has complied with the requirements of the December 2, 2011 Consent Order, and that release from the restrictions imposed by the order is warranted, and further finding that the within Order is sufficiently protective of the public health, safety and welfare, in lieu of further proceedings, and for other good cause shown;

IT IS on this 22nd day of April, 2013

HEREBY ORDERED that:

1. Respondent's petition for termination of the restrictions placed on his nursing license pursuant to the December 2, 2011 Consent Order is hereby granted, and respondent's nursing license is no longer subject to restriction or encumbrance.
